

**21ST STREET BEAUTIFICATION
CITY OF ANDOVER
ANDOVER, KANSAS**

***CONSTRUCTION COST: \$2.3M
COMPLETION: 2012***

Poe & Associates was hired by the City of Andover to perform design services for the 21st Street Beautification project. The project involved widening 21st Street with a raised median, outlined with colored stamped concrete to highlight the landscaping, which will be implemented upon completion of the road. Poe's project responsibilities included design, as well as an added clause to administrate and inspect the project during construction. Poe was also responsible for filing all state and federal paperwork, conducting project meetings, reporting and downloading pay items to the Kansas Department of Transportation, and acting as a liaison between the City of Andover and concerned citizens of Andover.

Project Team: Mike Thompson, P.E. (Project Engineer)
Jake Unruh (Project Designer)
Jim Duling (Senior Inspector)
