

**LINDSEY STREET WIDENING: JENKINS TO BNSF RAILROAD  
CITY OF NORMAN  
NORMAN, OKLAHOMA**

***CONSTRUCTION COST: \$2.2M  
COMPLETION: 2012***

The Lindsey Street project is widened the existing two-lane roadway to a four-lane roadway with a raised median and turn lanes. This project is in partnership with the University of Oklahoma. The improvements include multi-use trails, roadway and pedestrian lighting, a signal at George Street, and landscaping throughout. Adjacent park land and a historical pedestrian bridge were a major components of the environmental considerations.

Project Team: James Benson, P.E. (Principal-in-Charge)  
Helene Murdock, P.E. (Project Manager)
