

Upper Bishop Creek Interceptor Sewer
Norman Utilities Authority
Norman, Oklahoma
Poe & Associates, Inc.

Construction Cost: \$1.7M

Completion: 2007

Description: This project included approximately 11,000 feet of new sanitary sewer interceptor in Norman. Pipe sizes range from 12-inch to 36-inch. The project traversed a variety of different areas including residential developments, a golf course, a city park, a railroad, and numerous conflicting utilities. Services provided by Poe & Associates included a preliminary study and a survey, as well as plans and specifications for the improvements.

Project Team: Richard Grotte, PE (Project Manager)
